

Respected HR

Subject: Cover Letter for SDE role at KPMG

I am writing to express my strong interest in the Software Engineering position at KPMG in Bangalore, Karnataka, as advertised. With a background in software development and a keen enthusiasm for emerging technologies, I am excited about the opportunity to contribute to KPMG's Lighthouse practice.

Over the years, I have honed my skills and expertise in software engineering, with a primary focus on Java development. My experience with Core Java, including versions 7, 8, and 9, has provided me with a solid foundation in object-oriented programming and software design principles.

I have also gained valuable insights into database management through my extensive work with SQL, enabling me to design and optimize data structures effectively. Furthermore, I am well-versed in both Linux and Windows environments, ensuring my adaptability to various platforms and enhancing my troubleshooting capabilities.

One of my strengths lies in my ability to understand and navigate the Software Development Life Cycle (SDLC). I am well-acquainted with the various stages of software development, from project inception to deployment, and I am eager to contribute my skills to enhance the efficiency and quality of projects at KPMG.

As a team player, I have consistently demonstrated my collaborative mindset and adaptability in various professional settings. I am confident that my ability to work both independently and as part of a cohesive team aligns seamlessly with KPMG's values and goals.

Moreover, I view continued learning and growth as essential components of a successful career in technology. I am committed to staying updated with industry trends and innovations, and I believe that my dedication to personal and professional development will complement KPMG's commitment to excellence.

In addition to my technical skills, I am highly motivated to explore opportunities in the Financial Services domain. While I do not possess specific domain knowledge at this time, I am eager to leverage my existing expertise to contribute effectively to projects in this sector.

I am impressed by KPMG's dedication to diversity and equal opportunity, and I wholeheartedly share this commitment. I am eager to contribute to KPMG's culture of innovation, inclusivity, and excellence.

Thank you for considering my application. I am excited about the possibility of joining KPMG's dynamic team and contributing to the company's mission. Please find my resume attached for your reference.

I look forward to the opportunity to discuss my qualifications further. Please feel free to contact me at 9002615290 or reach.shivamsharma@gmail.com to arrange an interview. Thank you for your time and consideration.

Sincerely,
Shivam Sharma

EXPERIENCE

AVYAANYATECH PVT. LTD

DEC 1, 2023 - JULY 1, 2024

Android Developer (On Site + Remote)

I completed an on-site Android development internship in Delhi, where I built Java-powered B2B Android apps, including a second-hand car dealing app, a paint company's app, and an office management app. I gained experience in responsive UIs, API integration, and payment gateways. After three months, I transitioned to remote work to manage academic commitments, further enhancing my problem-solving skills and Android development expertise.

EDUCATION

BRAINWARE UNIVERSITY

B. TECH CSE - AIML 2021-2025

Avg. SGPA (till 6 semester) : 8.76

KHANNA HIGH SCHOOL (H.S)

INTERMEDIATE , Pure Science 2021

WBCHSE, Marks : 69%
